

Winter by Elizabeth

It is winter. I like winter.

We had four feet of snow. The birdies had no food, so I fed them. Now they have food to eat. We made a snowman outside. He has four buttons, a carrot nose, and straw hair. We went skating yesterday. There are no more geese, and swans, and ducks, because it is too cold for them. They go where there is no snow for winter, and then they come back in summer. We have a blue jay living in our tree, and the chickadees are all over our yard. I once held a chickadee because I had bird feed in my hand, and he came to eat it. The deer like to come and eat the carrot that we put on our snowman. Then we have to put another carrot on. Sometimes we have a snowball fight.

We do our schoolwork in the winter. I would like to learn how to spin wool so I can crochet a blanket and make a scarf for my snowman to stay warm. It is cold in the winter. In winter I like to shovel the snow. In the winter the squirrels have to find their food that they gathered in the summer. We like to go tobogganing down Cornwall hill. I like to play in the snow in winter.

Winter is white. Winter is fun. Winter is great. I like winter!
